Full Access Semi-Custom Cabinetry

Clean lines and modern vibes.

Since the face frame is eliminated, only full overlay door styles are available, and only a small sliver of the cabinet box is visible when the doors and drawers are closed. Cabinet sides are thicker for added stability and serve as a solid place for door hinges to be directly attached.

* The door and/or drawer front center panel on Maple painted doors may be constructed of Medium Density Fiberboard (MDF), except on the Liberty door style, or when Distressing or Heirlooming is specified.

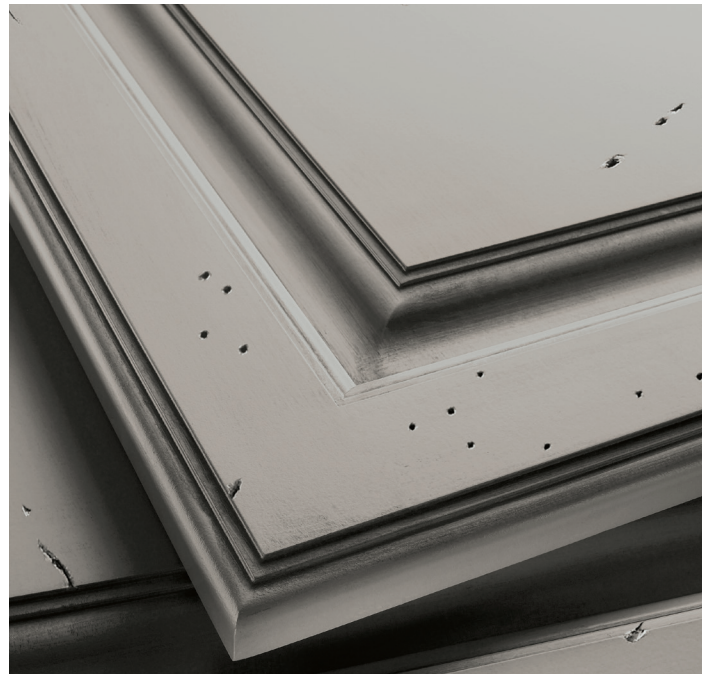

SATIN SHEEN
(Top portion of door)

Our timeless original top coat features a moderate sheen which is reflective without being too glossy. Available on all stains, glazed stains, paints and glazed paints.

MATTE SHEEN
(Lower portion of door)

Our low sheen top coat is less reflective and absorbs more light, resulting in a softer, more muted look. Available on all stains and glazed stains. Not available on paints or glazed paints.

DISTRESSING
Unique imperfections like wormholes, chisel marks and tiny dents and dings replicate the wear found on a well-loved piece of furniture.

HEIRLOOMING
Over-sanded edges and profiles expose the underlying wood to create a naturally aged appearance, lending depth and character.

Full Access cabinetry is built without a traditional frame, leaving only a small sliver of the cabinet box visible when the doors and drawers are closed. This construction platform has become a growing trend for homeowners in search of a streamlined look. Available on most Full Overlay door styles with the exception of Caldera MDF, Breman MDF, Bryant MDF and Worthen PureStyle.
